

LETTER FROM THE CHAIRMAN AND CEO

Dear Customers, Shareholders, and Global Citizens,

At AbbVie, our work addresses some of the world's most pressing health challenges. Our people and suppliers are aligned around a core set of values and a shared commitment to responsibility. I am enormously proud of the work that we do together.

Our responsibility agenda puts patients first. Our deep knowledge of patient experiences and health care systems creates value for individuals and societies around the world. Our patient-focused approach has resulted in treatments for neglected tropical diseases, broadened support for patient education groups, and expanded access to our medicines.

As a new company steeped in a century-long tradition of responsibility, AbbVie is committed to improving lives, and we pledge to go about it in a transparent and sustainable way.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard A. Gonzalez".

Richard A. Gonzalez
Chairman and CEO
